3. The Zoning Hearing Board shall commence its hearings within sixty (60) days after the request is filed, unless the landowner requests or consents to an extension of time.
4. The Zoning Hearing Board shall render its decision within forty-five (45) days after the conclusion of the last hearing. If the Board fails to act on the landowner's request within this time limit, a denial of the request is deemed to have occurred on the 46th day after the close of the last hearing.

1705.2. Challenges to the validity of the Zoning Ordinance, raising procedural questions or alleged defects in the process of enactment or adoption which challenges shall be raised by an appeal taken within thirty (30) days after the effective date of the Ordinance.

1705.3. Special Exceptions, as provided for in this Ordinance and subject to all applicable requirements, including, but not limited to:

1. Filing Requirements - In addition to the required zoning permit information (see Section 1803) each special exception application shall include the following:
 - A. Ground floor plans and elevations of proposed structures;
 - B. Names and addresses of adjoining property owners, including properties directly across a public right-of-way;
 - C. A scaled drawing (site plan) of the site with sufficient detail and accuracy to demonstrate compliance with all applicable provisions of this Ordinance; and,
 - D. A written description of the proposed use in sufficient detail to demonstrate compliance with all applicable provisions of this Ordinance.
2. General Criteria - Each applicant must demonstrate, by credible evidence, compliance with the following:
 - A. The proposed use shall be consistent with the purpose and intent of the Zoning Ordinance.
 - B. The proposed use shall not detract from the use and enjoyment of adjoining or nearby properties.
 - C. The proposed use will not substantially change the character of the subject property's neighborhood.

- D. Adequate public facilities are available to serve the proposed use (e.g., schools, fire, police and ambulance protection, sewer, water and other utilities, parks, solid waste disposal, vehicular access, etc).
 - E. The proposed use shall comply with those criteria specifically attached to it. In addition, the proposed use must comply with all other applicable regulations contained in this Ordinance.
 - F. The traffic generated by the proposed use shall be safely and adequately accommodated during peak and non-peak periods, or improvements made by the applicant shall be made in order to effect the same.
 - G. The proposed use shall be in and of itself properly designed with regard to internal circulation, parking, buffering, screening, and all other elements of proper design as required by this Ordinance and any other Federal, State, or local ordinance, law, or regulation.
 - H. The proposed use will not have deleterious impact on adjoining properties or the neighborhood due to impacts and/or by-products of the proposed use, such as noise, dust, odor, smoke, litter, glare, heat, radiation, electromagnetic interference, etc.
 - I. The proposed use will not substantially impair the integrity of the Comprehensive Plan.
 - J. For development within the Floodplain Zone, the application shall comply with those requirements listed in Article 11 of this Ordinance.
3. Conditions - The Zoning Hearing Board in approving special exception applications may attach conditions considered necessary to protect the public welfare and the purposes listed above, including conditions which are more restrictive than those established for other uses in the same Zone. These conditions shall be enforceable by the Zoning Officer, and failure to comply with such conditions shall constitute a violation of this Ordinance and be subject to the penalties described in Article 18.
4. Site Plan Approval - Any site plan presented in support of the special exception pursuant to Section 1705.3.1.c shall become an official part of the record for said special exception. Approval of any special exception will also bind the use in accordance with the submitted site plan; therefore, should a change in the site plan be required as part of the approval of the use, the applicant shall revise the site plan prior to the issuance of a zoning permit. Any subsequent change made after the issuance of a zoning permit to the proposed use of the

subject property which is not reflected on the approved site plan, may require the obtainment of another special exception approval.

1705.4. Variances - The Board shall hear requests for variances where it is alleged that the provisions of this Ordinance inflict unnecessary hardship upon the applicant. The Board may, by rule, prescribe the form of application to the Zoning Officer, which shall at least include the following:

1. Filing Requirements - In addition to the required zoning permit information (see Section 1803), each variance shall include the following:
 - A. Names and addresses of adjoining property owners, including properties directly across a public right-of-way.
 - B. A scaled drawing (site plan) with sufficient detail and accuracy so as to present the nature of the request and the unique site conditions that create hardship to strict compliance with this Ordinance.
 - C. A written description of the requested variance, along with a description of the hardship that is being alleged and all reasons why the variance should be granted.

2. General Criteria - The Board may grant a variance, provided that all of the following findings are made where relevant in a given case:
 - A. That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that the unnecessary hardship is due to such conditions, and not the circumstances or conditions generally created by the provisions of this Ordinance in the neighborhood or zone in which the property is located.
 - B. That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of this Ordinance, and that the authorization of a variance is therefore necessary to enable reasonable use of the property.
 - C. That such unnecessary hardship has not been created by the applicant.
 - D. That the variance, if authorized, will not alter the essential character of the zone or neighborhood in

which the property is located, nor substantially or permanently impair the appropriate use or development of adjacent property, nor be detrimental to the public welfare.

- E. That the variance, if authorized, will represent the minimum variance that will afford relief and will represent the least modification possible of the regulations in issue.
- F. That variances within the Floodplain Zone shall comply with Section 1108 of this Ordinance.
- G. In granting any variance, the Board may attach such reasonable conditions and safeguards as it may deem necessary to implement the purposes of this Ordinance. These conditions shall be enforceable by the Zoning Officer, and failure to comply with such conditions shall constitute a violation of this Ordinance and be subject to the penalties described in Article 18.

1705.5 Appeals from the determination of the Zoning Officer, including, but not limited to, the granting or denial of any permit, or failure to act on the application therefore, the issuance of any cease and desist order, or the registration or refusal to register any nonconforming use, structure or lot.

1705.6 Appeals from a determination by a municipal engineer or the Zoning Officer with reference to the administration of any provisions contained within the Floodplain Zone.
