

## SNOW PLOWING INFORMATION

**Did you know that throwing snow from your property or vehicles out onto the road is against the law?**

**It's because it's a safety hazard!** Once the roads are all plowed and the township road crew is finished for the shift, any snow that is thrown, shoveled or blown back onto the road then freezes and becomes a block of ice. The plow trucks cannot remove blocks of ice from the road surface and it becomes a hazard for all drivers.

The township is asking for all residents' cooperation, to not throw the snow from your cars or blow/shovel the snow from your driveways and sidewalks back onto the roadways. Let's keep our township roads safe for all vehicles that travel them during the snow season!

Thank you!
